

Scale Model Requirements

CHECK to see if you have ALL parts!

- Scale indicated (metric! 1 cm = _____ km)
- All sections labeled with correct name (**crust, mantle, lithosphere, asthenosphere, outer core, inner core**)
- All layers drawn correctly to the scale indicated
- In color
- Matter state indicated for each layer (you only have two options)
- Composition (primary components only – elements, please!)
- Average/approximate thickness of each section (km!)
- Approximate average temperature of each layer
- Approximate average density of each layer
- Neat, legible – **NAME, period, scale, and TITLE on FRONT**
