

8th Grade Technology Assessment

The South Carolina Department of Education Office of eLearning has announced a new requirement for districts to receive Formula grant funds. This requirement is necessary for the SCDE to complete its required reporting to the federal government.

Districts must agree to provide technology proficiency assessment data for all of their 8th grade students and K-12 certified personnel (full-time teachers, librarians, media specialists, and school administrators) [1]. This requirement can be met by taking this online technology proficiency assessment provided to each district by the Office of eLearning. Each student and staff member will only be required to take the assessment once a year.

Login Directions:

- Launch the web browser of your choice and enter <http://techassessment.ed.sc.gov> into the address bar.
- At the login page, click on “Students”

Login Page:

- Enter your User Name : SUNS ID-10 digits (State Student Unique Numbering System) from the State SASI database
- Enter your Password (your last name)
- Click on the Login Button
